## DATASHEET

### ACTSAFE ACX REMOTE CONTROL

This replacement accessory of the ActSafe ACX POWER ASCENDER increases the safety of every user considerably. With the ActSafe ACX REMOTE CONTROL, a second person working on the ground can take over the control of the passenger winches up to a range of 150 metres. This enables them, for example, to abseil a disabled and unconscious person in an emergency without an elaborate rescue system. The person working on the rope can override the control at any time.

#### FEATURES

Application areas:	Various
